

California OES Weather Threat Briefing

Thursday, June 10, 2021
9:00 AM PDT

Day 1 (Thursday): Breezy conditions across the Sierra and southern deserts/mountains could lead to elevated fire weather conditions today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

06/10/21 - 06/16/21

Thursday - Tuesday

- Elevated fire weather conditions are expected across the Sierra and southern deserts/mountains Thursday, and may also return Sunday through Tuesday, with locally gusty winds over the Sierra
- Some additional light showers are possible across far northwest California Friday through the weekend, though rainfall amounts look to be less than one-tenth of an inch
- Warmer temperatures make a return for much of the state through the weekend and next week
 - Temperatures across southeastern California will significantly increase early next week, likely bringing significant heat impacts to the region
 - Inland deserts could see Very High Heat Risk beginning next Wednesday
